Link to Map: <http://www.823reynolda.com/map.htm>

Eric Sauda

Architect, Professor, UNCC SoA

Director of the Digital Design Center

Research at the Digital Design Center strives to connect new technologies with existing methods and conventions in practice and academia. **Digital Fabrication:** integration of computer controlled machines into the design and construction process. **Interactive Architecture:** studies how computers can be embedded into physical environments at all scales from individual objects to cities. **Visualization:** focuses on the presentation of information in visual forms that optimize decision making ability.

Catering by Mrs. Pumpkin's Bakery Deli
